October 1, 1995

Dear Colleague:

Enclosed is the **Outsourcing Awards Database** for the third quarter of 1995. The information was obtained from public information and a copy was sent to the appropriate vendors for verification.

The database is divided into two sections. The first section is a list, by year, of the major contracts; the second is a list of the most recent outsourcing awards with an indication of the scope of the contract. The database is enclosed in hard copy and electronic formats.

The electronic format is Microsoft Excel 5.0. There is one Excel file with two spreadsheets on the enclosed disk: the general database (Full List) and the new contract spreadsheet (New Contracts). You will be receiving a new version of the database at the end of October.

INPUT views the **Outsourcing Awards Database** as a living entity that is constantly changing with the events of the outsourcing market. We welcome your comments and suggestions on the database, as well as any other aspect of INPUT's Outsourcing Program.

Sincerely,

Wilson Haddow
Vice President

Fax (415) 961-3966

October 1, 1995

Dear Colleague:

Enclosed is the **Outsourcing Awards Database** for the third quarter of 1995. The information was obtained from public information and a copy was sent to the appropriate vendors for verification.

The database is divided into two sections. The first section is a list, by year, of the major contracts; the second is a list of the most recent outsourcing awards with an indication of the scope of the contract. The database is enclosed in hard copy and electronic formats.

The electronic format is Microsoft Excel 5.0. There is one Excel file with two spreadsheets on the enclosed disk: the general database (Full List) and the new contract spreadsheet (New Contracts). You will be receiving a new version of the database at the end of October.

INPUT views the **Outsourcing Awards Database** as a living entity that is constantly changing with the events of the outsourcing market. We welcome your comments and suggestions on the database, as well as any other aspect of INPUT's Outsourcing Program.

Sincerely,

Wilson Haddow
Vice President

October 1, 1995

Dear Colleague:

Enclosed is the **Outsourcing Awards Database** for the third quarter of 1995. The information was obtained from public information and a copy was sent to the appropriate vendors for verification.

The database is divided into two sections. The first section is a list, by year, of the major contracts; the second is a list of the most recent outsourcing awards with an indication of the scope of the contract. The database is enclosed in hard copy and electronic formats.

The electronic format is Microsoft Excel 5.0. There is one Excel file with two spreadsheets on the enclosed disk: the general database (Full List) and the new contract spreadsheet (New Contracts). You will be receiving a new version of the database at the end of October.

INPUT views the **Outsourcing Awards Database** as a living entity that is constantly changing with the events of the outsourcing market. We welcome your comments and suggestions on the database, as well as any other aspect of INPUT's Outsourcing Program.

Sincerely,

Wilson Haddow
Vice President

August, 1995

Dear Colleague:

Enclosed is the **Outsourcing Awards Database** for the second quarter of 1995. The information was obtained from public information and a copy was sent to the appropriate vendors for verification.

The database is divided into two sections. The first section is a list, by year, of the major contracts; the second is a list of the most recent outsourcing awards with an indication of the scope of the contract. The database is enclosed in hard copy and electronic formats.

The electronic format is Microsoft Excel 5.0. There is one Excel file with two spreadsheets on the enclosed disk: the general database (Full List) and the new contract spreadsheet (New Contracts.) You will be receiving a new version of the database at the end of October.

INPUT views the **Outsourcing Awards Database** as a living entity that is constantly changing with the events of the outsourcing market. We welcome your comments and suggestions on the database, as well as any other aspect of INPUT's Outsourcing program

Sincerely,

Wilson Haddow
Vice President

Faint, illegible text at the top of the page, possibly a header or introductory paragraph.

Second block of faint, illegible text, appearing to be the start of a main section.

Third block of faint, illegible text, continuing the main section.

Outsourcing Awards Database

2nd quarter

INPUT[®]

Frankfurt • London • New York • Paris • San Francisco • Tokyo • Washington D.C.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze the data. This includes both primary and secondary data collection techniques. The primary data was gathered through direct observation and interviews, while secondary data was obtained from existing reports and databases.

The third section details the statistical analysis performed on the collected data. It describes the use of descriptive statistics to summarize the data and inferential statistics to test hypotheses. The results indicate a significant correlation between the variables being studied, suggesting that the findings are statistically sound.

Finally, the document concludes with a summary of the key findings and their implications. It highlights the need for continued research in this area and offers practical recommendations based on the study's results. The author expresses confidence in the reliability of the data and the validity of the conclusions drawn.
